

# Get a better gauge on your instruments!

Learn how at this affordable, half-day seminar.

## Easy Gauge Tracking

If you need an easy, foolproof way to manage your measurement devices, this seminar is for you. This course is designed for quality practitioners who are responsible for managing their plants' devices, whether they are tracking 20 or 20,000.

This half-day session will teach you how to use *GAGEpack EZ* to efficiently manage inspection, measurement, and test equipment in order to comply with ISO 9000, QS-9000 and other quality standards.

## In just 3 hours you will learn all of this and more:

- How to get the most out of your existing gauge data
- How to secure access to your gauge data
- How to generate virtually any report with just one click
- How to avoid 3 common audit nonconformities
- How to implement foolproof traceability
- How to perform an R&R study that meets MSA Manual 3rd Edition requirements

## Who should attend

If you are involved in managing gauges and other measurement devices in your plant, you should attend this seminar.

## Hands-on training with computers

This hands-on course explores the tracking and analysis opportunities *GAGEpack EZ* affords you. The seminar includes an introduction to *GAGEpack EZ* featuring hands-on computer use with *GAGEpack*'s powerful gauge management and R&R charting capabilities.

## Gage R&R expertise

Jeff Aughton, M.A., Cert. Ed., a Cambridge University graduate in mathematics, serves as technical manager for PQ Systems Europe Ltd. He has provided training and consulting for a variety of organisations throughout Europe and is the author of a number of articles published in professional and trade journals. He has contributed to the development of PQ Systems' *GAGEpack*, *PORTspy*, *SQCpack*, and *DOEpack*.
